

Yoto Coin News Update

The Yoto Coin ICO Management Team have had to take stock due to:

1. The late start of the Yoto Coin ICO;
2. The imminent launch of the Yoto Exchange;
3. The concerns subscribers have raised about insufficient notification of the ICO dates; and
4. The late publication of the White Paper.

The Yoto Coin ICO Management Team have discussed and decided that the most equitable way forward is to:

1. Extend the Seed Investment Coin Stage offer of 50 cents immediately until further notice; and
2. Postpone the second stage of the ICO.

This will extend the timescale of the ICO but also will ensure the future success of Yoto Coin.
